Approval and Promulgation of Implementation Plans; Tennessee: Approval of Revisions to the Tennessee State Implementation Plan Regarding Prevention of Significant Deterioration

AGENCY: Environmental Protection

Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is approving revisions to the Tennessee State Implementation Plan (SIP) submitted by the State of Tennessee on September 1, 1993, and June 10, 1996. These revisions pertain to the Construction Permit chapter. The purpose of these revisions is to correct certain deficiencies to satisfy the requirements of the Clean Air Act (CAA) concerning Prevention of Significant Deterioration (PSD).

In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the EPA views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time. **DATES:** To be considered, comments must be received by August 28, 1996. **ADDRESSES:** Written comments on this action should be addressed to Mr. Scott M. Martin at the EPA Regional Office listed below.

Approval and Promulgation of Implementation Plans; State of Missouri

AGENCY: Environmental Protection

Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to correct a previous action published on February 29, 1996, that approved and incorporated multiple amendments to Missouri rule 10 CSR 10–6.110 into the State Implementation Plan (SIP) (see 61 FR 7714). Specifically, this action corrects the EPA's inadvertent SIP approval of section 5 (Emission Fees) of Missouri rule 10 CSR 10–6.110 entitled, "Submission of Emission Data, Emission Fees, and Process Information." In the final rules section of the Federal Register, the EPA is approving the correction as a direct final

rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If the EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Comments on this proposed rule must be received in writing by August 28, 1996.

ADDRESSES: Comments may be mailed to Joshua A. Tapp, Environmental Protection Agency, Air Planning and Development Branch, 726 Minnesota Avenue, Kansas City, Kansas 66101.

FOR FURTHER INFORMATION CONTACT: Joshua A. Tapp at (913) 551–7606.

SUPPLEMENTARY INFORMATION: See the information provided in the direct final rule which is located in the rules section of the Federal Register

Approval and Promulgation of Implementation Plans and Designation of Areas for Air Quality Planning Purposes; State of Washington

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking.

SUMMARY: EPA invites public comment on its proposed approval of two related State Implementation Plan (SIP) revisions submitted by the Washington Department of Ecology (Washington). Washington has submitted a SIP revision to redesignate the Vancouver, Washington, carbon monoxide (CO) nonattainment area, which is located within the southern portion of Clark County, Washington, from nonattainment to attainment. Under the Clean Air Act as amended in 1990 (CAA), designations can be revised if sufficient data is available to warrant such revisions. In this action, EPA is
